## Babson Discusses Building

(Exclusive NEWS Feature)

Most people are bearish on the building outlook for 1952. Naturally, fewer houses will be built, but it would be a great mistake to think that the demand for new houses is over. The demand for houses, although less, will continue heavy in 1952. Those who need a new home to live in should build or buy whenever the right location is available at the right price.

Letters come to me from cities in the Central West, stating that good citizens are forced to move away because of lack of housing. If these communities have truly patriotic citizens, they will get together and start a campaign to get new houses built.

### Reasons for Continued Demand

It is true that the price of new houses has gone up considerably during the past few years, but have they gone up in price more than everything else? It is unreasonable for wage workers, manufacturers, and even shopkeepers to complain about the increase in building costs when they are getting similar increases for labor, agricultural products, manufactured goods, and merchandise. Of course, building will fall off, but when that time comes and prices are lower most people won't have the money to take advantage of the bargains!

Also remember that our population is rapidly increasing. There are around 155,000,000 people in the U. S. today with a total annual income of \$275 billions, compared with 125,000,000 population and \$60 billions of national income only twenty years ago. We also must realize that a well-built and well-located house is one of the best hedges against inflation, continuing to hold its own, or increase, as the dollar declines in value. For those who own a good home and do not care to build another for rental, here is a suggestion for use of their extra money.

### Consider Building Stocks

Seventy-five per cent of the cost of materials in a home is spent on four things: (1) cement, (2) lumber and shingles, (3) wall board and plaster, and (4) paint. By buying stocks in one of the leading companies manufacturing any of these basic products, it is possible to profit with the building industry. When the next depression comes, the price of these stocks will go down with everything else, but they should come back again in price quickly. The following suggests four such companies.

**CEMENT:** A cement company which I like is the Lehigh Portland. It has raw material to last for many years. It is located in growing sections of the country. The common stock sells at about \$24 and yields about 5%. The first thing that one must buy when building a house is cement, but cement has many other uses. When a depression comes and the building of homes declines the Federal Government and the states will start road-building projects, and all of these will require cement. Therefore the cement industry, to that extent, may be called a depression-proof industry if there is any such thing in existence.

## Perham Named Heart Chairman For Arlington

Robert E. Perham of Dorothy Road will serve as chairman for the Arlington 1952 Heart Fund, according to Turner Wells, State chairman of the drive.

Mr. Perham, a member of the Arlington American Legion Post No. 39, said that although he is new to the work of the Heart Association, he feels that a program to support basic research in diseases of the heart and circulation and an educational program to help local citizens to understand and live with their hearts is of great importance.

Dr. Gordon A. Saunders and Dr. Alfred Yood, sponsors, and Mrs. Norris H. Hoyt, head of the Women's Division, will assist Mr. Perham in attempting to double the amount of money raised in Arlington last year to cut the toll of a disease that claimed 750,000 Americans in 1950.

Chairman Perham will announce further details of the Arlington Campaigning this month.

## Shirley Carr Is Bride Of Mr. Raymond Klotz

Mr. and Mrs. William A. Carr of 118 Crescent Hill Avenue announce the marriage of their daughter, Shirley Anne, to Mr. Raymond Klotz on December 28th in Winchester, Virginia.

Mr. and Mrs. Klotz will be at home after February 1, their home being at 318 Burnham Road, Lowell.

## Stewardesses

The young ladies above are Arlington's newest stewardesses. They are Miss Jean McClellan and Miss Barbara Leonard.

It's eyes skyward for Miss Jean McClellan, daughter of Mr. and Mrs. Henry E. McClellan of 18 Menotomy Road and Miss Barbara Leonard, daughter of Mr. and Mrs. John W. Leonard of 25 Berkeley Street. Both reported at Miami, Florida on January 2 for flight assignments with Eastern Air Lines.

Miss McClellan was previously employed as a telephone operator by the New England Telephone Co. and Miss Leonard worked as a stenographer at Harvard University. Both girls are graduates of Ward School of Airline Training in Worcester, where they took a stewardess-hostess course. They were two of 26 members of the class selected by Eastern Air Lines during interviews conducted by major airlines at the school.

## State Committee Delays Action On Local Town Manager Bill

The joint committee on towns at the State House yesterday voted to postpone action on the petition for Town Manager form of government for Arlington. The committee felt that there were still some technical and legal questions that would have to be ruled on by the State Supreme Court before recommendations could be made.

One of the important changes in the re-draft of the Arlington Town Manager bill is a new section which would allow the act to be amended by a two-thirds vote of the town meeting and a subsequent referendum. A dispute arose in the committee as to whether this would be constitutional. The same question has arisen on three other bills now before the legislature.

The delay in action will afford the Arlington committee on Town Manager form opportunity to submit a re-drafted form to the Town Meeting, and the whole question can then be submitted to voters on the November ballot, to take effect in March 1953 if accepted by the town. This would not delay operation of the Town Manager form of government because if the present bill had been voted on in the March election it still would not have taken effect until March 1953.

Senator Philip Graham, chairman of the committee, will notify the local committee of any decision made.

## Local Fireman Saves Life of Choking Baby

Arlington fireman Chester C. Egan, who was off duty last Friday, was credited with saving the life of William Perham, 5 months old son of Mr. and Mrs. Robert E. Perham of 42 Dorothy Road, when the baby choked on some food.

Egan, at home in the downstairs apartment of the Perham residence, was called by Mrs. Perham when she saw the baby turning blue. Egan worked over the child until the fire department rescue squad arrived and applied an inhalator, which revived the baby after 10 minutes.

## New Elks' Clubhouse Dedicated By State And Lodge Notables

On Sunday of a week ago, Arlington Elks dedicated the new home of their order. The clubhouse is located on Pond Lane adjoining the Arlington Boys' Club and, since being purchased by the Elks, has undergone improvements. Salvatore Cannistraro commented, "It isn't quite finished yet, but we couldn't wait any longer to dedicate it." Members of the Revere Lodge of Elks were present to conduct the dedication ceremony.

Before the dedication began, members and guests ambled around the building over the lounge room, the meeting hall, and other rooms. Dozens of cigars created a first-class smoke screen in the main hall, and in one corner a three-piece musical ensemble of piano, violin, and drums played "How You Going To Keep 'Em Down On the Farm," adding "April Showers," "Meet Me Tonight In Dreamland," "Bewitched, Bothered, and Bewildered," and many other tunes both old and new. The musicians were William Hogan, organist of the local lodge, Raymond Stewartson of the Watertown lodge, and Edward Hogan of the Everett lodge.

Judge Edward Dever, Secretary of State Edward J. Cronin, Judge John E. Fenton, Judge Wilfred Paquette, Richard D. Armstrong, district deputy grand exalted ruler of the Metropolitan district of Elks, Town Clerk James Golden, Selectmen Sorenson and Kenney, and many other well-known guests were present. The guests expressed their pleasure over the opening of the new lodge home and gave good wishes for the future of the organization.

District Deputy G.E.R. Richard Armstrong asked for a prayer to open the meeting, then spoke on the ideals of the lodge. Judge Fenton, beginning his address with a joke, continued on to tell of the beginnings of the Elks, saying the group was founded by a group of actors in New York in February 1868. Most of the guests, including Judge Fenton, Mr. Golden, Mr. Kenney, Judge Dever, Secretary of State Cronin, Judge Paquette, and others, are themselves members of the Elks.

As part of the ceremony the keys to the clubhouse were formally

## Committee Asks Discontinuance Of Overlapping

Members of a three-man committee this week put forward suggestions which, they say, should save money for Arlington taxpayers and bring about more efficiency in the purchasing of supplies for town trucks, automobiles, snow plows, and other vehicles. Members of the committee are William Barnstead, chairman, Thomas Rawson, and Roy V. McCormick.

To carry out the recommendations of the committee, an article will be inserted into the warrant, it is stated, asking the appointment by the moderator of a five-man committee to consider the advisability of a central garage, the question of sites, the drawing of plans, and the submission of a report to the next annual town meeting.

### National Birthday For Dr. F. Townsend Of "Townsend Plan"

Some 500 Townsend members representing clubs all over the country were in Cleveland, Sunday, January 13 for a surprise birthday party honoring Dr. Francis E. Townsend, founder and president of the Townsend Plan for National Insurance. Dr. Townsend, who will fly to Cleveland from his home in Los Angeles, will be 85 years of age on that date. The all-day celebration will be held at Townsend National Headquarters, 6875 Broadway, according to Robert C. Townsend, son of the founder.

Dr. Townsend, known to his followers in 12,000 clubs throughout the nation as "the father of pensions in America," skyrocketed to fame during the depression years when he advocated generous pensions to all elderly persons retired from gainful employment.

The Townsend Plan today calls for monthly pensions paid as a matter of right to all persons 60 years of age or older who are no longer employed, to the blind, to the totally and permanently disabled, and to widows with children of minor age.

The program would be financed by means of a 3 percent tax assessed against the gross income of business and industry and against individual income in excess of \$250 a month. The program would replace the Social Security Act. Townsend advocates claim that, based upon current business volume, pensions would average in the neighborhood of \$150 a month.

Two bills supporting the program have been introduced in the present Congress. They are now in the Ways and Means Committee of the House, but 164 Congressmen already have signed a petition urging that they be brought to the floor for debate and a vote.

Immediately after the January 13 party, Dr. Townsend left for Washington, where he has scheduled meetings with Congressmen and Senators who are friendly to the Townsend program.

### New Florida Grandfather Resigns from Town Meeting

Town Clerk James Golden received on December 31st the resignation of Ira L. Goding, formerly of 17 Tanager Street, as Town Meeting member. Mr. and Mrs. Goding have now moved to St. Petersburg, Florida following Mr. Goding's recent retirement from the Boston and Maine Railroad. He was station agent in Arlington for many years.

Mr. Goding's term was to have expired in 1954 and will be filled at the annual election.

The Godings also had a new grandchild recently, the son of Mr. and Mrs. Robert W. Alsen. The baby, John Robert Alsen, was born in Corning, N. Y. on December 22nd. The paternal grandparents are the Carl W. Alsens, Jr. of 103 Jason Street.

**MEDICAL PLANS LISTED  
FOR CIVILIAN DEFENSE**

What would happen in the medical field in Arlington in the event of an emergency—say the dropping of an atomic bomb? A news-letter released by the local Office of Civil Defense gives an enlightening picture of what could be expected to happen. E. Vernon Rich, administrator of Symmes Hospital, is in charge of this phase of civil defense and is responsible for the execution of these plans in an emergency. The main portion of the newsletter follows:

"Main center of activity, of course, will be the hospital, but plans have also been made to use the Senior High School as an auxiliary hospital to handle casualties not needing immediate attention, such as simple fractures, radiation sickness, etc. In addition, first aid stations will be set up at Junior High East and in Hardy, Locke, and Cutter Schools, where casualties will be gathered and screened as to the seriousness of their injuries and decision made as to where they should be sent. Evacuation hospitals, to care for persons well enough to be moved from the main hospital, will be set up in Peirce and Bishop Schools, where patients can be moved without crossing a main line of traffic. These buildings would be used, of course, in case of a major catastrophe in which the main hospital could not handle the situation.

"The hospital itself would necessarily be adapted to handle large scale casualties and its plan for emergency operations is interesting. The present operating rooms, a suite of three rooms, would be operated as a unit to handle major surgery. The accident room and adjoining post-anesthetic recovery room would constitute a second unit, also to handle major surgery. The women's lounge and a store-

room across the hall would constitute a third unit for major surgery on the head and neck. One delivery room upstairs would be converted to an operating room eyes, ears, etc. The X-ray room would be maintained intact for diagnosis and surgical work. The main kitchen and dining facilities would remain intact to care for the large number of people who would have to be fed. The pharmacy and blood bank, including a place for the bleeding of donors, would be left as is on the ground floor for easy access. The lobby and business offices would be used for clerical help in the keeping of records and identification of the large numbers of people involved.

"So much for the changes in use of the building. But what about regular patients at the hospital? The present obstetrical suite, excluding one delivery room already mentioned, would be given over to obstetrics under slightly different conditions. One delivery room would remain permanently available, but more people would be in one room and mothers and babies would be kept together during the emergency. This suite is so arranged that it is independent of the rest of the hospital so far as maintaining sterile supplies, etc., are concerned, so that except for being a little crowded, maternity cases would be isolated from other casualties. The rooms now used for new-born infants and two adjacent rooms would become the temporary children wards. Other patients in the hospital at the time would be moved to the obstetrical section, thus relieving four units of the hospital for major casualties of a surgical nature.

"Are you wondering how all this can be handled? Mr. Rich assures us that the hospital could be

staffed indefinitely in emergency on a 24-hour basis, except for nurses and doctors for the operating rooms, and could be operated for a 48-hour period without any outside help, except supplies. The bottleneck would be in the operating rooms, where extra doctors and nurses would have to be brought in to relieve those on duty.

"But it is only the main hospital which could be adequately staffed. As for the auxiliary stations, there is another story. By using all the doctors (medical, osteopathic, and dental) available in town, these auxiliary stations and hospitals can be staffed professionally. The visiting nurses would send one nurse to each first aid station and auxiliary hospital as supervisor, and at the two evacuation hospitals the top nurse supervisors of the hospital would serve as supervisors, but aside from that they would be unmaned! Each of the five sub-stations would need about 270 people as nurses' aides, orderlies, stretcher bearers, etc., and the two evacuation hospitals would each need about 400 people. In other words, to staff these hospital facilities we should have about 2,000 volunteers. At present there are only 127 volunteers signed up! Need more be said? Contact your friends who could serve in this way and persuade them to volunteer. And you volunteer!

"As now set up, Dr. Stephen Jones would be surgical chief; Dr. Lawrence Andros, chief of radiology; Dr. Richard Moran, in charge of the blood bank and laboratory; Wilhemmina DeWolfe, R.N., nursing chief at the hospital; Janet Russo, R.N., chief nurse in the operating rooms; Brooks Saville, in charge of mortuary

facilities; George Holleman, chief of information and identification; and Ted Lorenzetti, chief of supplies.

"There you have the picture in brief of our medical plan. Of immediate concern, however, is the present low supply of whole blood, not only in this area but throughout the nation. Our casualties in Korea are the principal cause of our present shortage, but on the other hand if we each took time out to consider this problem, we would realize that an easy solution rests with each of us in the donation of our blood."

## THE PRESS AND THE NATION

Many will look back over the past year with a feeling bordering on despair. The cause of free men has had tough sledding. It is impossible to adequately describe the suffering and frustration in Korea just as it is impossible to sum up in a few words the political, economic and social milestones of the past twelve months. It is clear now that corruption in government has become a factor on the American political scene of incalculable importance. It is also clear that debt, taxes and controls are a threat to military security and a virtual death sentence to the economic security of the average individual.

In spite of these grim items on the debit side of the ledger Americans must face the new year with courage. They can count among their blessings assets possessed by no other nation. Years ago one of the country's leading economists and columnists who apparently saw the handwriting on the wall wrote to the effect that the greatest gifts parents could leave their children were good health and a good education. We are the healthiest and most literate of the major nations. These basic tools if properly used are now our best hope.

The Industrial News Review for December 31st says, "One of the most significant stories of the year rated no headlines. That story is the tireless manner in which our free press has hammered home day after day, chapter by chapter, shocking facts about the incompetence and corruption of countless public officials to say nothing of the grand schemes of bureaucratic spenders of tax funds to socialize and control industry, workers and consumers. Never in the history of this country has a free press stood more solidly between private citizens and oppression. We all owe it a permanent debt of gratitude for the manner in which it has ferreted out weaknesses, dogma, and white-wash in matters ranging all the way from foreign policy to government administration."

The situation at the beginning of 1952 has been described as a race between education and catastrophe. Because our country enjoys free speech and a free press the outcome should not be in doubt. The people have the means to know what is going on. Their knowledge can be a source of unbeatable strength, in the future as it has been in the past. But it is of utmost importance that they take their knowledge and use it, for no matter how much knowledge they are given, mere words will not insure freedom and mere lip service will not insure us a future.

## Christian Science Service

That immortality and bliss are commensurate with the understanding of Life, God, and are not withheld until after the experience called death, will be among the leading points in the Lesson-Sermon entitled "Life" to be heard at Christian Science Services this Sunday.

"For whose findeth me findeth life, and shall obtain favour of the Lord" (Proverbs 8:35), will be among the passages read from the Bible.

The Lesson-Sermon also includes this statement from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality."

"Understanding is a wellspring of life unto him that hath it." Proverbs 16:22, is the Golden Text.

## Active Burglar Has Big Week; Is Now Sought Over Wide Area

An active Arlington burglar who has been played up by Boston papers as an "Ax Burglar" is being sought by police for several house breaks in the Pleasant Street area. The method of the man is to break the glass in doors, near the lock, then to reach in and unlock the door. The ax is used only to break the glass, and according to Chief Bullock of the police department, there is no cause for alarm.

Police on Sunday sent out a teletype description of a man suspected of being implicated and described him as 35-38 years old, 5 ft. 7 in. or 5 ft. 8 in., 150 pounds, wearing a soft gray hat and dark coat. He is thought to be a parolee from State's prison.

On Saturday, Mrs. Walter Temple of 8 Wellington Street reported to police that a neighbor told her she had seen a man entering a house at 86 Pleasant Street half an hour before. Cars 7 and 9 went to the scene to investigate.

Half an hour later, at 7:22 p.m., Mrs. Sweetser of 17 Hopkins Road reported that her home had been entered during her absence. At 7:36 Joseph Spitzer of 18 Peabody Road called police to say that his house also had been entered. Edward Clark of 26 Upland Road, owner of the property at 86 Pleasant, was notified by police of the break at that address and went to the house to secure the door.

On Sunday evening about 9:00 Officer Tynan discovered a burglar attempting to make an entry at the Seonyo gas station at 369 Mass. Avenue. As he approached the building the burglar heard him and fled. The lock on the front door had been damaged. On Tuesday, Officer Flynn reported the alarm at the Arlington Television Service ringing and the front door unlocked. The glass in the lubricator door of the Shell station at 90 Mass. Avenue was found broken not long afterward by Officer Caselli.

The home of Dr. Gordon Saunders also was among those ravaged by the intruder. It would appear that losses of several hundred dollars have been suffered by the victims. Also listed in the breaks was the home of John Costello, 4 Kenilworth Road. FBI agent William Hunter of Kenilworth Road discovered the burglar at work.

The show is sponsored by the FCA Association, an employees' group of John Hancock Life Insurance Co. It will feature over 125 handicrafts and collection displays by members of the home office staff. The show is open to the public from 11:30 a.m. to 6:00 p.m. on January 24 and 25.

Robert Brown, son of Mr. and Mrs. Albert S. Brown of 5 Robbins Road, is playing the part of "The Bishop" in the production of "Robert's Wife," a comedy being given at the Leland Powers School of Radio, Television and Theatre in Boston on January 23-25. Mr. Kachel is the producing director of the Pilgrimage Play, given annually in Pilgrimage Bowl, Hollywood.

Decareau received his Master's Degree at the University of Massachusetts last June. He

## Roger Babson's Column

Continued from Page One

LUMBER AND SHINGLES: Theoretically a house can be built of steel and glass, but such a house would cost much more than an ordinary house. Hence, there will continue to be a demand for lumber. That is why this column recently recommended the purchase of standing woodland as one of the best long-term investments. All lumber stocks have gone up so much in price that I hesitate to recommend any of them at this time. However, one of the favorite lumber companies which handle that product from stump to carpenter is the Weyerhaeuser Timber Company. The common stock sells at \$70 and yields about 4%.

WALL BOARD AND PLASTER: The U. S. Gypsum Company is the outstanding manufacturer of wall board, plaster, and allied products. It owns great natural resources, it has manufacturing plants in all parts of the country, and its products are unexcelled. The common stock sells at \$107 and yields nearly 7%; but for every ten shares of common stock there is about \$375 worth of government bonds in the Company's treasury. Its management is superb.

PAINT: There are many good paint companies but, as an illustration, I mention Sherwin-Williams. The stock sells for \$67 and yields 5%. Painting is one of the first things that people economize on when hard times come, but this may not apply to the large number of single story houses built in recent years, which will need repainting soon and can be painted by the owners.

As a final reason for my being reasonably optimistic on building, let me mention the very liberal mortgage terms of today. When I built a house thirty years ago, I was obliged to pay 6% interest and got a mortgage for only three years. Today you can borrow money at 4% and have twenty years to pay it back.

## Lions Hear F.B.I.

At the last meeting of the Arlington Lions Club a special agent of the F.B.I. spoke on the workings of that organization, telling of its beginnings in 1908 and of its development through the crime wave of the 1930 and the communist investigations of the present time. The agent, Daniel J. Griffin, told of the number of fingerprints on file: 810,000 in 1930, 43,000,000 in 1943, 117,000,000 in 1951 — with no two fingerprints alike. A feature of the F.B.I. headquarters is the "moniker" file, containing thousands of nicknames.

The agents, he told the Lions, are trained in the National Academy in Washington, adding that Lt. Albert E. Ryan of the local police department is a graduate of the academy. "There are 117 classes of federal violations which are covered by the F.B.I.," he stated.

The Lions' mid-winter conference for the state will be held in Worcester on January 26 and 27. The January 21st meeting of the local club will be a joint meeting in Belmont; the February 4th meeting at the Old Mill will present James Goddard of Somerville, speaking on "Inflation."

on communities assessed at present and upon adjoining communities. Public officials and taxpayers interested in the complicated MTA problem should attend the public hearings and voice their opinions.

## Garage Proposed

(Continued from Page One)

A detailed statement of the number of vehicles owned by the town, the number of gallons and cost of gasoline used, the cost of repairs, and other pertinent details was released by the Barnstead committee this week. According to the figures given, the town uses 128 vehicles of which it owns 115. These vehicles use a total of 96,097 gallons of gasoline purchased from four sources. They are housed in the town yard, Park Dept., Robbins House, Colonial Motors, at one of the cemeteries, at 670 Mass. Avenue, and of course at the Police and Fire Departments.

Last year, according to the chart of figures prepared by the Barnstead committee, a total of \$70,332.96 was spent on hiring and repairs for the autos, trucks, plows, motorcycles, and other vehicles used by the town. Of this \$29,944.32 was for hired vehicles in the Public Works Dept. The Public Works Dept. is listed as having 73 vehicles; the Fire and Police signal system, 13 vehicles; the Police Dept., 11; the School Dept., 8; and other departments with five or fewer.

## Scout Notes

Recently 64 Scouts from Troops 16, 18, 20, 22 and 62 went to the Ice Capades by chartered bus. These troops and Brownie Troop 43 also went by chartered bus to the Boston Navy Yard where they had a guided tour and enjoyed a hot luncheon in the cafeteria. The 125 girls, all in uniform, were special guests on the Constitution. They sang grace at lunch, and before they left they had a good night circle and sang "Taps."

**Troop 29**  
Troop 29, Mrs. Arthur Glines, leader, held an investiture ceremony conducted by Mrs. Francis Fullerton on January 10th. The flag ceremony was impressive and pins were given out to the Scouts, all of whom were in uniform. The Scouts in this troop, Jean DePrato, Claire Dee, Gertrude Clommo, Virginia Gambardella, Jacqueline Glines, Marilyn Hogan, Barbara Klein, Judith Lennon, Nancy Miranda and Patricia Odione are now working on their Cooking and Hostessing badge.

**Troop 28**  
Troop 28, led by Mrs. Harold Noren, planned a party for twelve children at the Cambridge Community Center on Friday, December 14. Four (!) members of the troop, Louise Hicks, Marcia Moltman, Eileen Houlihan and Carol Sheerin, were present and played games and sang carols with their little guests, for whom they provided refreshments in the form of ice cream, cookies, and candy. Each child at the party received a gift.

**Troop 40**  
Troop 40, whose leader is Mrs. Mace, had a Christmas party on Wednesday, December 19. Each girl brought a ten-cent gift for exchange with another. They played games and enjoyed the cake, candy, and cookies which they had provided. Several weeks before Christmas were devoted to the making of gifts for other children and for their mothers. Among the gifts were knitting boxes and dish mop puppets.

**Troop 4**  
As part of their contribution to the Holiday Bazaar of Trinity Baptist Church, where their meetings are held, Troop 4 under the leadership of Mrs. Adams, had a Wishing Well which yielded \$34.15.

At a Christmas party for their mothers a pantomime, "Choosing a Christmas Tree" was presented by the girls working for their Dramatics badge; the Hostess badge group greeted guests and served homemade cake and punch; the Tenderfoot group taught mothers and Scouts a new game. A warm welcome was given the new assistant leaders, Mrs. Fred Herzog, Mrs. James Hoar and Mrs. Edward Finnegan, each of whom has finished her basic training course. In addition to making gifts

for their mothers and fathers,

**TROOP 41**  
Troop 41 marked the close of the first half of its year with a party at Brackett School. At impressive ceremonies advancement badges were presented to several members of the troop and five new members were added to the ranks. The boys were accompanied by their fathers, who also took part in the exercises. Games and refreshments rounded out the evening.

The Explorer group of the troop was given a camp cook kit for winning the patrol Christmas wreath sales contest.

The troop committee and scout leaders enjoyed a recent, (but snowbound!) weekend at Camp Ted, Waltham. They included Scoutmaster Charles M. Buxton, assistant scoutmasters Bruce H. Faunce and Raymond F. Real, and committeemen Joseph Skenderian, William A. Saganich, Joseph W. Walker, Albert Lovely, and Bernard F. Welch. Despite the heavy snows and zero temperatures the committee discussed and planned—with Mr. Buxton—the troop's program for the coming year. Committeeman Walker proved his culinary skill to the satisfaction of everyone.

Troop 41 meets Thursday evenings at Brackett School.

Your  
Income Taxesby  
James R. Canavan, C.P.A.

This is the second in a series of eight articles on Federal and State income taxes, distributed by Boston chapter of the National Association of Cost Accountants.

When can I get the answer to a tax question? If you have an unusual tax problem you should go to the local office of the Collector of Internal Revenue or to a competent tax man.

Is the pension I receive from my former employer considered taxable income?

Your pension is considered taxable income unless you contributed a certain amount to the pension plan through payroll withholdings. An illustration will help to clarify the latter situation:

Assume that an individual retired on December 31, 1950; and that during his period of employment he contributed through payroll withholdings a total of \$4,000 toward a pension plan. The \$4,000 represents his investment in the pension plan.

Assume further that the individual received \$100 a month during 1951 from his pension of the \$1,200 received in 1951 he will have to report \$120 (3% of \$4,000); as remaining \$1,080 is considered a return on his investment. The taxpayer will continue to report the \$120 each year until he recovers his \$4,000 investment. Thereafter, he will report \$1,200 a year as taxable income.

Are contest awards and prizes considered taxable income? Generally speaking, yes. The payment received is usually deemed to be consideration for services rendered by the contestant to the company making the award. In some instances, however, the amount received may be considered a gift rather than income for services rendered. A gift is not taxable income.

I insure my automobile with a mutual insurance company. Is the dividend I receive from the mutual insurance company considered taxable income?

No. The dividend you receive from the mutual insurance company is simply an adjustment of the cost of the insurance.

Must I report the interest on my Savings Bonds?

The interest you have collected on your Savings Bonds is taxable unless the bonds were purchased before March 1, 1941. If the bonds were purchased before March 1, 1941, the interest received on \$5,000 is wholly exempt each year. If the bonds are held jointly by you and your wife, you may exclude the interest on \$10,000. The exemption of the interest on \$5,000 or \$10,000 is based on the purchase value and not on the maturity value of the bonds.

Must I report the income of my wife and children?

## Decision On Scalese Hearing Due In Cambridge Court Monday

Perhaps the most engrossing part of the court hearing Monday on the application of John P. Kedian for a charge of assault and battery against Officer Dominic Scalese of the Cambridge police department was the appearance on the stand of Scalese himself.

A tall young man with thick black hair and the build of an athlete, Scalese told his side of the incident at the Cambridge-Arlington line which resulted in the hospitalization of Mr. Kedian and the taking of 23 stitches in his head. Scalese said the hospital attendant had told him 16 stitches were taken.

At one point in the questioning Scalese wiped away perspiration that streaked down his face. The room was closed and his buttoned-at-the-neck uniform was of heavy material.

Scalese told the first occasion on which he had met Kedian, saying that his attention was called to the Kedian car by the prolonged tooting of the horn and that Francis McCarthy, who was in the car waiting for Kedian, went into the Sunlight Cafe after him at Scalese's request. No difficulty occurred, Scalese said, and there was no mention whatever of having

Kedian get a ticket "straightened out" in the cafe.

After covering his area in the police car for an additional two hours, Scalese and his companion, Officer Jeremiah Mahoney, again saw Kedian, he said, first walking toward the Arlington line and later standing at the bridge. Scalese stated that he drove near Kedian, got out and approached him. Following a brief exchange of remarks, profanity and blows were hurled at him, Scalese said, and to protect himself he had to return the blows. Francis McCarthy then came on the scene after having driven the Kedian car into Arlington at Kedian's request, and Scalese said that McCarthy flashed a badge and said he was an officer but ran when Scalese approached him to check the fact. This was denied by McCarthy. After catching McCarthy and turning him over to Officer Mahoney and an M.D.C. officer who happened on the site, Scalese approached Kedian to help him off the ground, but a fight ensued, with Scalese using his club to subdue Kedian. The clubbing was done only to an extent necessary to protect himself from injury, by Kedian, declared the officer.

Lt. Cunningham and Sgt. Regan of the Cambridge police department told of the booking of Kedian and McCarthy, and the attendant of the gas station at Alewife Brook Parkway and Mass. Avenue, a Mr. Potchak, described what he saw of the affray. Many Cambridge officers including Chief of Police Ready, attended the hearing. The Arlington police were represented, and city and town officials of Cambridge and Arlington followed the hearing with interest, as did observers from the North Cambridge area where the incident occurred.

Two attempts to introduce evidence of previous Scalese encounters were made by the counsel for Kedian during the hearings, but they were ruled by Judge Russell as not pertinent to the present case and were not allowed. One point which developed during testimony was the use of the "claw," an instrument which can be put on the wrist of a prisoner and tightened to any degree desired. A claw, which could probably break a man's wrist, was used on McCarthy. Though not issued by the Cambridge police department, Scalese and many other officers of the department carry them. An out-of-court statement indicated that use of the instruments had been cleared with and approved by the district attorney.

Following the hearing of all witnesses and the summations by the attorneys, Senator John F. Collins appearing for Mr. Kedian and attorney John Daley of the Cambridge city hall representing Officer Scalese, Judge Gardner Russell continued the case until next Monday, at which time the decision on Kedian's complaint presumably will be given.

## League of Women Voters Sponsor "Trial" To Educate Jurors

Will that woman driver get her just desserts? Who will have to pay damages? The answer to these and other questions will be given at a mock trial to be given by the League of Women Voters at Junior High School East on Wednesday evening, January 30 at 8 o'clock.

The trial promises to be entertaining, but the League is sponsoring it primarily as a public service to instruct men as well as women in the procedures of jury duty. Many judges and lawyers have expressed the feeling that it fills a need for instruction in a field where general public ignorance prevails.

The League of Women Voters of Massachusetts has worked since 1920 to make it possible for women to serve on juries and now that legislation has been passed, many local leagues are seeking to instruct prospective jurors in proper court room procedures.

The plaintiff, played by Mrs. Richard Uhle of 24 Grand View Road, has as her lawyer Town Counsel Russell T. Hamlet, while the taxi driver defendant, played by David Ashton of 107 Appleton Street, will be represented by attorney John O. Parker of the Planning Board. Presiding over the trial will be Judge Lawrence Brooks of the Middlesex District Court in Malden, who will see that the trial procedure is correct in every detail.

Testifying for the plaintiff will be Dr. David Gersh of 1025 Massachusetts Avenue; for the defense, Dr. Richard J. Moran of 206 Massachusetts Avenue. The nurse in the car was played by Mrs. Harold B. Wood. There is no admission charge and the League cordially invites all interested men and women and students to attend.

Working hard to insure the success of this school for jurors are Mrs. Donald Pettee, chairman, and other members of the "Voters' Service Committee." Mrs. James Daily, Mrs. Hugo DeFritsch, Mrs. John B. Fox, Mrs. Chester Ginder, Mrs. Frederick Glynn, Mrs. Norris Hoyt, Mrs. Herbert Knight, Mrs. Henry Lutz, Mrs. Andrew Magnus, Mrs. Harry Magnusson, Mrs. Ernest March, Mrs. Malcolm Maclellan, Mrs. Glenn Owen, Mrs. Sampson, Mrs. Robert G. Strong, Jr., Mrs. Gordon Thompson, and Mrs. Milton Webb.

Among the twenty-four women who will compose the panel from which the jury will be chosen are Mrs. Charles Blackmon, Mrs. John Curtis, Mrs. Spencer Dormitzer, Mrs. Augustine Doyle, Mrs. Chester Ginder, Mrs. Henry Lutz, Mrs. Andrew Magnus, Mrs. P. P. Palante, and Mrs. Gordon Saunders. The D. A. R. is sending Mrs. Ragnvold Maartmann-Moe and Mrs. L. Paul Monahan, and other organizations who have been invited to help fill the panel are the Woman's Club, the Catholic Woman's Club, the Women's Republican Club, and the Medford League of Women Voters.

### Raytheon Mfg. Co. Reports Profits

Raytheon Manufacturing Company last week reported net profits of \$608,000 on sales of \$28,500,000 for the quarter and net profits of \$718,000 on sales of \$45,348,000 for the six months period ending November 30, 1951. Earnings applicable to common stock, after taxes and dividends on preferred stock, were 32c per share for the second quarter and 35c for the six months.

Although sales of the Company showed a 10 per cent increase over the similar six months' period of 1950, profits declined from \$1,278,000 to \$718,000 or 63c per share.

The present backlog of government work has increased to about \$170,000,000.

### Brotherhood Committee Plans For Activities

At a meeting at the Old Mill on Friday of last week the Arlington Brotherhood Committee voted to cooperate with the efforts of the National Conference of Christians and Jews. The organization, of many years' standing, has done outstanding work on a national scale in the promotion of understanding between religious groups and boasts hundreds of religious, political, and social leaders in its membership.

Those attending the local meeting, the entire committee being present, were Curtis Foye, David Govenar, James J. Golden, Leonard Wood, and Arthur J. Mansfield. The committee reviewed work which has been done locally in the interests of inter-group understanding, including the many programs fostered by the schools and PTA groups, and it considered plans for observance of Brotherhood Week, which comes between February 10 and 16. Although it was felt that the time is now too short for promotion of an essay contest on brotherhood, such an activity is planned for next year.

The committee is writing to all local churches to ask their participation in the observance of Brotherhood Week.

## '52 Oldsmobile Here On 24th

Oldsmobile's 1952 line of cars will be introduced to the public on Thursday, January 24, according to Louis T. Boucher and Colonial Motors of Arlington, Inc. There will be a representative display of the 1952 models at Colonial Motors' Showroom, 745 Massachusetts Avenue.

Styling and mechanical improvements will be outstanding in 1952 Oldsmobile cars, including new Hydra-Matic Drive, according to advance information sent out by J. F. Wolfram, Oldsmobile general manager and vice-president of General Motors. Working within material and tooling limitations, Oldsmobile engineers have achieved real results in appearance and performance, he stated.

All 1952 model changes are designed to enhance the comfort and beauty of the Oldsmobile while, at the same time, making it easier for the motorist behind the wheel. Whether it be on the highway or in crowded city traffic, the 1952 Oldsmobile will perform up to new high standards, Wolfram declared.

### DeMolay Notes

Twenty-six charter members of the new Arlington Chapter, Order of DeMolay, received their DeMolay degrees last Friday, January 11th at their regular meeting place in the Parish Hall of First Universalist Church. The degree work was performed by the officers of Battle Green Chapter from Lexington under the direction of Master Councillor Donald Polley, with "Dad" Andrew J. Pewtherer in charge.

An unexpected pleasure occurred in the visitation of the district deputy for this district: Mr. Herbert K. Miller of Reading, who was attended by a suite of officers of the Saugus Chapter—the 50th and latest DeMolay Chapter to be instituted in Massachusetts. Arlington Chapter will become the 51st Chapter upon its institution which will take place on Friday, March 14th in the Town Hall, at which the first line of officers will be installed in elaborate and colorful ceremonies.

The Advisory Council of Arlington Chapter announces the appointment of the following DeMolay boys as the first three officers of the Chapter: Master Councillor, Richard A. Rockwell, formerly Junior Deacon of Battle Green Chapter; Senior Councillor, Albert E. Woods, formerly Almoner of Battle Green Chapter; Junior Councillor, Richard H. VanDeusen, also of Battle Green Chapter. Henry E. McKelvie, chairman of the Advisory Council, announces the addition of two new members to the Council: Mr. Donald F. Millard and Mr. Raymond E. Udall. Arlington Chapter now meets regularly on the 2nd and 4th Fridays of each month at the Universalist Church, Parish Hall.
